In compliance with section §35-192E of the Arizona Revised Statutes, the following report is a summary of obligations, allocations and expenditures of state funds under the authority granted by the State Legislature in §35-192E, Arizona Revised Statutes. The report represents the actions taken by the Governor and the Arizona State Emergency Council (Council) in response to Arizona's emergency needs during FY2014 beginning July 1, 2013 through June 30, 2014.

I. GUBERNATORIAL PROCLAMATIONS DECLARED

As a result of emergency situations which were beyond the capability and resources of local government, one gubernatorial proclamation was declared during FY2014.

A. Apache & Greenlee County Flooding (730026)

Declared: September 20, 2013

On September 13-14, powerful seasonal monsoon rains passed over Apache and Greenlee Counties which resulted in significant flooding, erosion and debris which isolated certain residents and severely restricted accessibility for other residents of both counties. The heavy rains resulted in significant flooding on the San Francisco River, significant flooding on the Blue River, causing significant damage to the primary route of ingress and egress to several residences and emergency personnel in the surrounding areas. The Blue River damage washed out a bridge, and eroded several portions of the road and shoulder. The flooding will require major construction to repair the road to its pre-disaster condition, as well as potential mitigation efforts to fortify the road from future flooding damage.

The County, in accordance with A.A.C. R8-2-304, requested assistance from the State with the repair of the roadway and related engineering.

The Governor's declaration appropriated \$200,000 to this emergency for these repairs.
