Performance Management Module 19

DoD Performance Management and Appraisal Program (DPMAP)

Mr. Randy Hendryx
602-629-4815

UNCLASSIFIED
In DPMAP the overall appraisal process is:

A continuous two-way communication between supervisor and employee allowing a systematic evaluation of performance against clearly stated standards.
• The yearly appraisal cycle is 1 April thru 31 March, effective on 1 June
  Example Cycle: 1 April 20XX thru 31 March 20XX+1, effective 1 June 20XX+1

• It is **REQUIRED** to have 3 formal (system documented) performance discussions yearly
  1. the performance plan, 2. the progress review and 3. the final appraisal.
  (Any appraisal missing the above steps is invalid)

• Employees **MUST** work under an approved plan for 90-days during the cycle to be eligible
  to receive an appraisal.

• Performance appraisals use a 3-tiered system to rate performance
  A 5 rating is “Outstanding”, a 3 rating is “Fully Successful” and a rating of 1 is
  “Unacceptable”. All Performance Elements are critical and will not be weighted.

• Performance elements and standards for supervisors must be equal to or greater than the
  technical elements and standards
DoD core values will be discussed with employees at the beginning of the appraisal cycle and will be annotated on **ALL** performance plans. The DoD core values are: leadership, professionalism, and technical knowledge through dedication to duty, integrity, ethics, honor, courage, and loyalty.

Performance plans must be Approved within 30 Days of the start date of the rating period.

**Progress Reviews are not mid year reviews.** One documented Progress Review is mandatory per appraisal cycle. You may have as many progress reviews as needed!

**Performance Narratives.** Addresses the employee’s performance measured against the performance standards for the appraisal cycle.

**Performance narratives** are mandatory for each element rated “Outstanding” (Level 5) and “Unacceptable” (Level 1). They are optional but highly encouraged for each element rated “Fully Successful” (Level 3).

**Performance Narrative Statements** will replace Closeout Assessments and is required when a supervisor changes for an employee who has performed under an approved performance plan for 90 calendar days.

Planning Performance
Performance Appraisal System

Planning Process

• Analyze the position

• Assess what the key KSAs are

• Review/update the job standards

• Review/ensure accuracy of the position description

• Identify the job elements

(Planning work and setting expectations)
### Performance Appraisal System

#### Employees:
- Identify achievable performance elements and standards for themselves
- Provide input to supervisor regarding the performance plan
- Ask questions to clarify the supervisor’s expectations of their performance

#### Supervisors:
- Compile list of tasks
- Establish appropriate performance elements
- Establish quantifiable and measureable standards
- Communicate approved performance plan to employee and how performance expectations link to organizational goals
- Encourage continuous, meaningful two-way communication
- Proactively communicate the plan to the employee
- Provide a copy of the approved performance plan
- Conduct performance planning discussions
- Modify the performance plan, as needed

Performance Management is a COLLABORATIVE EFFORT between Supervisors and Employees
Performance elements describe what work is to be performed

Performance plans must have a minimum of one critical performance element, maximum of 10, and each performance element must have associated standards that define expectations.

The number of supervisory performance elements on performance plans for supervisors will equal or exceed the number of non-supervisory (technical) performance elements.

An organization may have standardized performance elements.

DoD Instruction 1400.25, Vol. 431
Performance Standards

Standards describe how the requirements and expectations provided in the performance elements are to be evaluated

Should be written using SMART criteria

Must be written at “Fully Successful” level for each performance element

Avoid using absolute standards (e.g., 100 percent, always, or never) unless critical to life and safety

DoD Instruction 1400.25, Vol. 431
Performance Standards

Are the standards fair?

Are they comparable to expectations for other employees in similar positions?
  – Applying different standards to employees doing the same work does not appear on its face to be fair or valid
  – Requiring higher-level management review of standards for similar work across an organization may be one way of ensuring equity

Do the standards allow for some margin of error?
  – Requiring perfection is not fair in most instances
Writing SMART Standards

- **S** Specific
- **M** Measurable
- **A** Achievable
- **R** Relevant
- **T** Timely
2. Provide accurate, timely customer service
Upon receipt of requests, provide accurate responses in the agreed-upon timeframes, as defined by ICD 24.8, using the appropriate format identified in SOP25 during the performance appraisal cycle ending March 31, 2017. This supports the organization’s commitment to be responsive to customers and clients. Meet suspenses 90% of the time. Provide accurate responses with no more than 2 errors per request.
After discussion(s), finalize a written performance plan

It’s important that both the supervisor and the employee understand the performance plan

Plans must be clearly communicated to and acknowledged by employees
Elements for Supervisors

The following elements must be included for employees who also supervise (CNGBI 1400.25 v431 para 6.c.)

Avoiding Year-End Surprises

Continuous communication (Progress Reviews) help ensure clear understanding of outcomes in the final performance appraisal.

The overall goal is mutual understanding between employee and supervisor which helps eliminate surprises at the end of the appraisal cycle.
**Performance Management**

**Communicating Achievements**

Employee input is strongly encouraged to ensure supervisors have a full range of information when evaluating employee accomplishments.

**Employee input should:**
- Identify accomplishments in a clear, concise manner.
- Describe how accomplishments relate to the performance elements and standards.
- Demonstrate how accomplishments contributed to organizational goals.
Addressing Performance Issues
Informal Feedback

Steps for effective informal feedback are:

- State what has been observed using facts, not emotions
- Describe how the performance fails to meet standards
- Wait for a response (let them talk)
- Ask for a solution; give suggestions if needed
- Agree on a solution together
- Set a follow-up date and time

Make sure you document everything!
How Employees Can Improve Performance

✓ Ask clarifying questions
✓ Ask for specific examples of “Fully Successful” performance
✓ Request additional job-related training or assistance
✓ Adhere to responsibilities outlined in the PIP document; actively seek assistance when needed
Evaluating Performance
✓ Performance Appraisal Cycle
   01 April to 31 March

✓ Performance Ratings
   ➢ 5 - Outstanding
   ➢ 3 - Fully Successful
   ➢ 1 - Unacceptable
Employee Performance Ratings

(5) OUTSTANDING

• The average score of all performance element ratings is 4.3 or greater, with no element being rated a “1”, resulting in an overall rating of record that is a “5”.

(3) FULLY SUCCESSFUL

• The average score of all performance element ratings is less than 4.3, with no element being rated a “1”, resulting in an overall rating of record that is a “3”.

(1) UNACCEPTABLE

• Any performance element rated as a “1”.

UNCLASSIFIED
SAMPLE Performance Rating Narratives

Level 5 - Outstanding
• Produces exceptional results or exceeds expectations well beyond specified outcomes
• Sets targeted metrics high and far exceeds them (e.g., quality, budget, quantity)
• Handles roadblocks or issues exceptionally well and makes a long-term difference in doing so
• Is widely seen as an expert, valued role model, or mentor for this work
• Exhibits the highest standards of professionalism

Level 3 – Fully Successful
• Effectively produces the specified outcomes, and sometimes exceeds them
• Consistently achieves targeted metrics
• Proactively informs supervisor of potential issues or roadblocks and offers suggestions to address or prevent them
• Achieves goals with appropriate level of supervision

Level 1 - Unacceptable
• Does not meet expectations for quality of work; fails to meet many of the required results for the goal
• Is unreliable; makes poor decisions; misses targeted metrics (e.g., commitments, deadlines, quality)
• Lacks or fails to use skills required for the job
• Requires much more supervision than expected for an employee at this level
Evaluating Phase Roles and Responsibilities

Employees

• Provide input
• Include each performance element
• Restate understanding of these performance elements
• Highlight all of the most significant achievements
• Make the connection accomplishment > result > impact on the organization
• Note challenges, how they were resolved, and lessons learned

Supervisors

• Request and consider employee input
• Consider obstacles encountered and overcome
• Prepare a written narrative and rating on each performance element
• Make meaningful distinctions based on performance; foster and reward excellent performance; address performance issues
• Clearly communicate approved and finalized ratings
A written rating of record must be provided at the end of the appraisal cycle for each employee who has been under an approved performance plan for 90 calendar days during the cycle.

Supervisors write a performance narrative that describes the employee’s performance measured against the performance standards for the appraisal cycle.

Performance narratives:

- Justify how an employee’s ratings are determined
- Are required for each element rated “Outstanding” and “Unacceptable”
- Are highly encouraged for each element rated “Fully Successful” as a means of recognizing all levels of accomplishments and contributions to mission success.
The supervisor sets the date, time, and location with the employee when meeting to discuss the evaluation.
1) Appraisal of less than “Fully Acceptable” requires immediate remedial action to allow improvement, including:

   - Establishment of a written Performance Improvement Plan (PIP)
   - An offer to participate in the Employee Assistance Program (EAP), as needed
1) Continued

- Description of potential actions resulting from continued “unacceptable” performance

- Statement of Notice that performance is at best “Marginally Acceptable”, for pay purposes

- Withholding of Within-Grade increase for which otherwise eligible
2) If performance improves to “Fully Acceptable”, a new rating may be given

- Acceptable performance rating requires granting a Within-Grade Increase, as determined by the state
3) A continuing “Unacceptable” rating requires the technician be

- Removed from employment in that position
- Reduced in grade (in that position) to a level at which qualified & capable of acceptable performance, OR
- Reassigned to another position for which qualified & capable of acceptable performance
A Technician may appeal any performance appraisal or notice of rating or any single aspect of an appraisal/rating.

Timeframes for filing appeals:

• Other than unacceptable ratings – within 30 calendar days of receiving the original copy of the appraisal

• Based on Unacceptable ratings – within 15 calendar days of receipt of written notice or original copy of appraisal
The Performance Appraisal Review and Appeals Board:

- Established by the state Adjutant General
- Consists of members of equal or higher grade than appellant
- **Cannot be in the appellant’s chain of command**
The Performance Appraisal Review and Appeals Board:

- Concerned only with the appeal--
  NOT the personnel action taken as a result of an unacceptable appraisal

- Submits decision within 15 calendar days
More...Appraisal Appeals

- The appellant is entitled to representation

- There are no appeal rights for this purpose beyond the Adjutant General

- Labor Relations Specialist – Ms. Stacey Mitchell

Supervisory Commitment Statement

I acknowledge my role as a supervisor is vital in fostering a fair, credible and transparent performance system. It is important that I ensure performance elements are linked to organizational goals; establish open communication; monitor and evaluate employee performance; recognize and reward performance and appropriately address deficient performance.

Progress Reviews

One documented Progress Review must be accomplished for each employee usually halfway through performance cycle.
Progress Reviews

Click on Create Progress Review
Progress Reviews

The Progress Review screen has 2 tabs
One for the assessment and another for approvals and acknowledgments.
Once the employee and the rating official have entered their input, complete the steps on the Approvals and Acknowledgements tab.

Employees must be offered the opportunity to provide input here

Rating official assessment goes here
Annual Appraisals

The Annual Appraisal is completed at the end of the appraisal period.

Annual Appraisal is located on the first row of tabs in the employee’s performance plan.
Annual Appraisals

Three tabs on the Annual Appraisal screen allow you to navigate to Assessments and Ratings, Rating of Record, and Approvals and Acknowledgments.
Annual Appraisals

After employee and Rater inputs have been entered the Rating of Record can be entered at the bottom of the assessment screen. Select Go to Next Performance Element until all elements have been assessed and rated. Then complete the Approvals and Acknowledgments.
Performance Narrative Statements

- Performance Narrative Statements are required whenever there is a change to the employee’s supervisor. This can result from a position change for the employee or a re-assignment of a supervisor.

- A Performance Narrative Statement is a non-rated assessment of an employee’s performance based on their established performance standards. This assessment becomes part of the performance plan and is available for the new supervisor’s consideration.

- The outgoing supervisor is responsible to complete the Performance Narrative Statement then changes the Rating Official and/or HLR to the employees new rating official. This essentially transfers the plan to the new rater. Do NOT create a new plan for a change in supervisors or job.

- The new rating official must review the performance plan, edit the performance elements for the employee’s new job and re-approve the performance plan.

- Performance Narrative Statements were formerly called Closeout Assessments.
Performance Narrative Statements is located on the first row of tabs in the employee's performance plan. Narrative Statements are written the same way Progress Reviews are except a Narrative Statement identifies a change in rating official.
Click View/Print Form to review DD Form 2906-DoD Civilian Performance Plan, Progress Review and Appraisal

Then click View/Print Form to open the PDF
Guest Participants can be added to provide input to an employee's performance plan and assessments. This is useful if you have an employee on another detail.
