-

BRIEF JOB DESCRIPTION:

Serves as the principle advisor to the commander and staff on all aviation and ground safety matters and manages the command's aviation safety program. Contributes to all Army Aviation planning processes. Assists the staff and commander during the risk management process, monitors all brigade and subordinate unit missions to identify and address potential hazards, and recommends actions improving safe mission accomplishment. Responsible for providing safety education throughout the command and ensures the incorporation of safety standards and procedures into all functions. Maintains the appropriate aviation safety records and mishap statistics; and works with the quality assurance/ analysis section to develop local maintenance instruction and procedures. With assistance of the quality assurance/analysis, the ASO investigates mishaps, incidents, and hazards in the command, which includes development and management of a pre-accident plan. Administers or monitors safety-related programs and advises subordinate unit safety officers as required. Functions as a direct training participant by piloting aircraft under tactical and non-tactical conditions, while supporting full spectrum training missions and operations to include live fire combat missions in all types of environmental situations be it day or night.
