Acceptance of this position requires participation in the Direct Deposit/Electronic Funds Transfer Program

EVALUATION PROCESS: Each applicant must **FULLY SUBSTANTIATE** on their application how they meet the requirements listed in the specialized experience area; otherwise applicant will be considered unqualified for this position. Applications will be evaluated solely on information supplied in the application (NGB Form 34-1) or resume. Experience will be evaluated based on relevance to the position for which application is being made. Include job titles, starting and ending dates (month and year), hours per week, salary, duties/accomplishments, employer(s) name and address, and supervisor(s) name/phone number and permission to contact.

EQUAL OPPORTUNITY: The Arizona National Guard is an Equal Opportunity Employer. Selection for this position will be made without regard to race, religion, age, national origin, sex, political affiliation, marital status, membership or non-membership in an employee organization or any other non-merit factor.

KNOWLEDGE, SKILLS AND ABILITIES REQUIRED FOR SUCCESSFUL PERFORMANCE IN THIS POSITION:

Each applicant should fully justify on their application how they meet each KSA listed below using AZNG Form 335-2-R to reference the justification.

1. Knowledge of mechanical, pneumatic and electrical principles applied to Fuel Systems.
2. Ability to read and interpret technical publications, plans and schematic diagrams.
3. Knowledge, skills, and ability to perform fuel leak evaluation, classification and repair including organic sealant removal, aircraft surface preparation, and application of organic sealing compounds.
4. Ability to inspect, remove, install and adjust various fuel system components such as fuel lines, valves, pumps, and switches to ensure proper operation.
5. Knowledge and ability to document maintenance actions both in electronic and written format.
6. Knowledge of safety requirements as they apply to Aircraft Fuel Systems Repair.

SPECIALIZED EXPERIENCE: Must possess at least 18 months of the experience or training which demonstrates the ability to learn basic electrical and mechanical principles. Experience which demonstrates the ability to learn procedures used to jack and perform hydraulic and pneumatic systems check. Experience in identifying basic malfunctions when source of trouble is easily located by appearance, sound, or response. Experience which demonstrates the ability to learn procedures used to service, maintain, disassemble, assemble and repair pneudraulic ground equipment. Experience using various hand tools. Experience which demonstrated the ability to follow written instructions.

BRIEF JOB DESCRIPTION: This position is located at 162 Wing, Tucson, Arizona in the Aircraft Fuels Systems Repair Shop and is responsible for inspection, repair and maintenance of aircraft fuel tanks and cells, and in-flight refueling systems. Performs fuel leak evaluation, classification and repair including organic sealant removal, aircraft surface preparation and application of organic sealing compounds. Performs inspections, functional checks and preventive maintenance on assigned aircraft to include periodic, phase, hourly, calendar and special inspections. Performs unscheduled maintenance to include troubleshooting fuel system malfunctions, determining the extent and type of repair, and performing the necessary repairs to include the removal, installation, adjustment and operational checks of various fuel system components such as fuel lines, valves, pumps, and switches on assigned aircraft utilizing various test equipment. Maintains emergency power unit (EPU) to include emergency response actions, recovery of EPU after system activation and servicing and maintenance of hydrazine fuel tanks. May be required to perform user and organizational level maintenance on assigned support equipment, including inspection, repair, modification, and corrosion prevention.

Completes all required documentation to include IMDS entries, aircraft and equipment maintenance forms and historical data. Complies with safety, fire, security, and housekeeping regulations. Prepares for, supports and participates in all applicable inspections and exercises. Performs additional shop duties as assigned. Subject to rotating shift potential, providing coverage on off duty weekends, and supporting unit temporary duty assignments.
