6. Applicants for E-8 positions must have the ability to complete Senior Noncommissioned Officer Academy within 36 months of assignment IAW para 2.20.1 of ANGI 36-2101.
7. Individuals selected for Control Grade positions are subject to Control Grade availability.

Acceptance of this position requires participation in the Direct Deposit/Electronic Funds Transfer Program

EVALUATION PROCESS: Each applicant must **FULLY SUBSTANTIATE** on their application how they meet the requirements listed in the specialized experience area; otherwise applicant will be considered unqualified for this position. Applications will be evaluated solely on information supplied in the application (NGB Form 34-1) or resume. Experience will be evaluated based on relevance to the position for which application is being made. Include job titles, starting and ending dates (month and year), hours per week, salary, duties/accomplishments, employer(s) name and address, and supervisor(s) name/phone number and permission to contact.

EQUAL OPPORTUNITY: The Arizona National Guard is an Equal Opportunity Employer. Selection for this position will be made without regard to race, religion, age, national origin, sex, political affiliation, marital status, membership or non-membership in an employee organization or any other non-merit factor.

KNOWLEDGE, SKILLS AND ABILITIES REQUIRED FOR SUCCESSFUL PERFORMANCE IN THIS POSITION:

Each applicant should fully justify on their application how they meet each KSA listed below using AZNG Form 335-2-R to reference the justification.

1. Knowledge of meteorological methods, techniques and practices including weather observing, forecasting, communications, meteorological equipment and support procedures in determining how local and world-wide conditions, reports and observations from various sources affect world-wide weather forecasts, the extent of change, and whether to take action to protect aircraft.
2. Skill in the development and operation of data collection, verification, information dissemination, observation and forecasting services and systems.
3. Skill in providing effective weather briefings to senior staff and DoD customers.
4. Ability to identify, evaluate, and monitor significant weather developments, especially as they present potential impacts on critical flight operations.

SPECIALIZED EXPERIENCE: Must have at least 24 months experience, education, or training in applying principles and procedures of various meteorological models and forecasting techniques. Experience collecting, analyzing, interpreting, and evaluating numerous meteorological and oceanographic charts, planning, organizing and coordinating work.

BRIEF JOB DESCRIPTION: This position is located at the 214th Attack Group, Operations Support Squadron, Weather Flight in Tucson, AZ. The primary purpose of the position is to provide meteorological services and weather observations and forecasts in support of world-wide Unmanned Aerial Systems (UAS) to ensure mission effectiveness, resource protection, and flight safety. Performs duties necessary to accomplish Weather Flight Mission Execution Forecasts (MEF) including the collecting, analyzing, and forecasting of atmospheric and space environmental information and forecasts and the tailoring and communication of weather data that impacts all parts of the mission to include takeoff, route, target and landing. Observes current local and world-wide environmental conditions. Identifies, evaluates, and monitors significant weather developments, especially as they present potential impacts on critical flight operations. Solves a variety of meteorological problems with other production personnel. Modifies forecasts developed

by other activities to provide information on exact conditions expected to be encountered by the aircraft for projected timeframe for the area of operation. Observes weather phenomena, encodes and records the observation following established instructions and guides using computer-based systems in weather station. Performs other duties as assigned or required.
